FOREWORD

It is a matter of great pride for me to present the annual report of our prestigious Institute for the year 2017.

Starting in the year 1916 with a noble objective for “Education & Empowerment of women” and LHMC has carried on this motto through this millennium also and recently increased the under graduate intake to 200 every year. New post-graduate seats & courses and post-doctoral courses have been added and new ones are soon going to be added. In a constant effort towards excellence we have now successfully registered as Organ Transplant Retrieval Centre and will be shortly registering as a Cornea Transplant Centre. Online registration system is being continuously upgraded and the college website has started. The talent of the faculty is being put to use in several national programmes including the “Vatsalya-Maatri Amrit Kosh”, National Human Milk Bank and Lactation Counseling Center running in collaboration with Norwegian Government.

The quality improvement program of healthcare professionals is being developed in the Institute in the last year which has been appreciated by WHO, which has designated the Institute as a nodal center. A skills lab in Ophthalmology has complemented the National skills lab in Obst. & Gynae. this year. I am sure we are getting the momentum required to scale the heights which this Institute was always meant to achieve. The comprehensive redevelopment plan will be the feather in the cap once it starts in this year with the same gusto as it started during 2012.

I take this opportunity to thank all the team members of LHMC include staff & students who have immensely contributed to the effort of making LHMC great again.

Dr. Rajiv Garg
Director

DIRECTOR'S SPEECH FOR THE ANNUAL DAY

Hon'ble Vice President Shri Venkaiah Naiduji, Honble Union Minister of Health and FW Shri J. P. Naddaji, Distinguished Guests, Faculty, Parents and dear students.

It is indeed a rare privilege and a great honour for this 102 year old institution to be witnessing the august presence of Hon'ble Vice President of India. Your presence here, Sir, marks another milestone in the long and glorious history of this Institution that began its journey with Lady Hardinge, wife of the then Viceroy of India, envisioning this Institution in the year 1912.

Lady Hardinge had a dream. A dream to start a medical college exclusively dedicated to women so that Indian women could come forwards to meet the ever growing demand for women doctors, as also to use medical education as a medium of empowerment at a time when women were bogged down by the Purdah system, Illiteracy and other social orthodoxies.

In the same era another great figure from the world history, Mahatma Gandhi was on the move. It was in the year 1930 when Mahatma Gandhi came to stay in Daryaganj as part of the Satyagraha movement, that some of the girl students of the college would sneak out of the hostel to attend his prayer meetings, much to the dislike of the then British teachers. They pleaded with the Mahatma to visit the college, which he did and addressed them in the convocation hall, which still exists just across this auditorium.

And Today we are reminded of the Great Mahatma in the context of our Honorable Prime Minister Shri Narendra Modi's April 10th visit to Champaran marking the 100 years of Mahatma Gandhi's Satyagraha with the aim of spreading the message of Swacha Bharat as a medium of promoting public health and sanitation. So we at LHMC, students and staff naturally feel an emotional connect and resonance born of 2 co-mingling events: One, Mahatma Gandhi's satyagraha visit to this institution 87 years ago and our institutions commitment to spreading the message of Swach Bharat Abhiyan and its public health consciousness.

Standing thus on the cusps of the history and the historic, on this momentous occasion of our convocation, it is time to take stock.

Where have we come from?

Where are we?

And where are we heading?

1. Our endeavour at transforming this brick and mortar hospital into a fully digitized: E Hospital with a view to increase: equity, access and delivery of quality assured services to our patients through schemes such as: Computerized and Online Registration System, Digitization of Hospital Records and the launch of HIMS system and Mera Aaspatal App, is taking shape.
2. The founding of a State of the Art National Human Milk Bank in collaboration with Norway, which is the first of its kind in the Government Sector in the whole of North India. It provides facilities for the storing of the Human Milk donated voluntarily by the lactating mothers to help those new born babies whose mothers are unable to produce milk.
3. As part of our commitment to Swachh Bharat Abhiyan we have started a green hospital initiative focused on: Tree Plantation, Energy Conservation through installation of LED lights, Rain Water Harvesting Units and Consciousness Building in the Community by our students through activities such as road shows and street plays themed on public health, hygiene and sanitation.
4. In support of the governments initiative to tackle the challenge of growing Anti Microbial Resistance we have launched a Comprehensive Antibiotic Stewardship program and integrated it with our hospitals infection control framework.
5. Our institution has also registered with the E-Rakt Kosh Initiative under the National Health Mission, where in, daily stock position of available blood is uploaded so that anyone can view the availability of blood units. We have also registered with the Hemo-Vigilance Programme of India, which records and reports all adverse transfusion reactions.
6. In preparation to align our institute with the National Skill Mission, we have started two Skill Labs with State of the Art Training Facilities in the Departments of Obs & Gyne and Ophthalmology.
7. Keeping in view the governments thrust on the Universal Health Care Access Coverage, we have started a Low Cost, Quality Assured Generic Drugs store under Amrit Pharmacy which was inaugurated by the Honble Health Minister.
8. We are also proud to state that recently we started the Delhi's only Free Bariatric Surgery services to meet the rising challenge of Non Communicable Diseases.
9. In order to modernize the delivery of Medical Education, we have launched an initiative to start an integrated State of the Art: E-Lecture Theatre along with a Tele-Medicine project.
10. To promote voluntary organ donation in the country have a voluntary body donation facility and hospital corneal retrieval programme.
11. Under the Medical Education Unit, a Students Leadership Mission was started in 2017 to involve and engage UG Students with various public health missions in order to develop virtues of leadership among students
12. Several of our Faculty Members achieved special distinction by participating in various events of international importance:
 - a. Dr Manoj Andley and Dr Gyan Saurabh from the Dept of Surgery were awarded fellowship of the Royal College of Surgeons of Glasgow in 2017
 - b. Dr Sudipta Saha from the Dept of Surgery presented a paper at the World Congress of Surgery at Basel, Switzerland

- c. Dr Abha Singh from the Dept of Obs & Gynae participated as International Faculty in AAGL Global Congress, Washington, USA
- d. Dr Varinder Singh from the Dept of Paediatrics was awarded the European Diplomate of Pediatric Respiratory Medicine
- e. Dr Suvasini Sharma from the Dept of Paediatrics was awarded fellowship at Children's Hospital, Westmead, Sydney in Neuro-Immunology
- f. The foundation of our Institution is based upon our undergraduate girl students. It is with a sense of our institutional pride and achievement that I wish to state the exceedingly outstanding performance of our students in the academic year 2017. Our undergraduate students scored an overall pass percentage of: 98.5% in the 1st MBBS, 95% in the 2nd MBBS and 97.4% in the 3rd MBBS held under the aegis of Delhi University.
- g. It fills me with immense pride to announce that one of our Undergraduate Student Ms Shruti Aggarwal stood 2nd in the First Professional Exam within the overall merit roster of the Delhi University.

Having come thus far, we the Faculty and the Students look forwards to an even more glorious future with the continuing support and assistance of the Ministry of Health and FW. I on behalf of the entire staff and students of the Lady Hardinge Medical College and the Associated Smt Sucheta Kriplani Hospital and Kalawati Saran Children's Hospital assure you that we shall continue to endeavour to work hard in giving shape to the great dream and take this Institution to ever higher pathways of glory

Thank you

Programmes run by MEU

1. **Teacher training programme:** As per the MCI Regulations on Graduate Medical Education, 1997, MCI made it mandatory for all medical colleges to establish Medical Education Units (MEUs) in order to improve the quality of medical training by training the teachers and enabling faculty members to avail modern education technology for teaching. The MEU, LHMC regularly holds Teacher Training Programmes for Medical Faculty of our institute with external observers from our Regional Centre, Maulana Azad Medical College, New Delhi.

2. **Medical humanities:** We have three programmes running under this:

- a) **Faculty and peer mentorship programmes:** This programme has been running in our institute successfully for the last five years. This programme envisions to empower the 1st Year MBBS students to take charge and responsibility of their lives with confidence as they step into the realm of adulthood in college. Under this the first year MBBS students are grouped with peer mentors from amongst the 2nd year MBBS students under the guidance of Faculty Mentors. We have an excellent ratio of Faculty mentor: peer mentor: mentee of 1: 3-4: 7-8.

Volunteer faculty mentors: Dr. Jayshree Bhattacharya, Dr. Anita Tuli, Dr. Shashi Raheja, Dr. Anju Jain, Dr. Sohinder Kaur, Dr. Sunita Mondal, Dr. Anita Nangia, Dr. Ritu Singh, Dr. Sonal Saxena, Dr. Sneha Agarwal, Dr. Kulwinder Kaur, Dr. Sujata Gautam, Dr. Mukta, Dr. Anita Pawar, Dr. Sheetal Joshi, Dr. Meenakshi, Dr. Parijat Gagoi, Dr. Mary Vibha, Dr. Krishna, Dr. Neeta, Dr. Anjoo Yadav, Dr. Yogita, Dr. Vandana, Dr. Jyotsana, Dr. Preeti, Dr. Shweta

- b) **Student leadership programmes:** The Medical Education Unit started STUDENT LEADERSHIP MISSION w.e.f. 20th Feb 2017 with the vision to develop a holistic, altruistic student leadership for dealing with problems of 21st century Life and living: with focus on issues of mental, physical and spiritual health. The purpose being to hone leadership and communication skills as well as team spirit in students from all semesters on a volunteer basis. The focus is on development of values of altruism, service over self, voluntarism and resilience. Medical Education Unit Faculty and other Volunteer faculty act as facilitators for this programme. A total of 11 topics were chosen and more than 40 activities were carried out during the year 2017.
- c) **Art and literature programmes:** Under this we conduct various programmes like photography, dramatics, dance etc. for the students under guidance by the faculty.
